Ukrsnu sklopku povezujemo u kombinaciji sa naizmerničnim sklopkama. Može se povezati neograničen broj ukrasnih sklopki u kombinaciji sa dve naizmernične.

Cross-switch is wired in combination with alternative switches. The unlimited number of cross-switches may be wired in combination with two alternative switches.

Taster sklopke za roletne povezujemo prema šemi koja obezbeđuje da elektromotor za pokretanje ne može istovremeno dobiti napajanje za kretanje dole i gore. Granični prekidači za zaustavljanje u gornjem ili donjem položaju su obavezni radi zaštite mehanizma.

Push-button switches for rolling shutters are wired according to wiring diagram which secures that the electric motor for their movement is not simultaneously power supplied for up and down movement. The limit switches for their stopping in upper and lower positions are a MUST for protecting the mechanism.
